NOVEMBER

SESSION : 2020-21

Head Teacher
Mrs. Reshma Singh

Dear Parents, Family and Friends of OMK

Accept my profound greetings!

Success is not what one gets but who one becomes. The only way to become successful and establish oneself as a known identity is by developing through actions and self-education. Idling around, dreaming and wishing for success will not bring about any change in one's life. One has to make determined efforts to grow as an individual. Success is not something that everyone can own. To be honest, the only way to achieve the best is to just work for it and not speak about it. We, at OMK totally believe on the aforesaid note and try our level best to achieve the self-set targets.

During the tough time of this on-going pandemic, we have tried to the best of our efforts not to compromise with the academics. Shifting our online classes from MS Teams to Eduletics Meet has helped us execute our teaching- learning processes with much better outcomes. Where technology has paved a smooth path for us to steer our academics through this catastrophe, it is our team that has steered everything which such balance. We are really fortunate to have a team that is totally committed towards the children's development.

Education should not come to a halt. With this idea, we are about to wind up our Post Mid Term and the assessments are beginning from 17.12.2020. We are really happy to see our children doing extremely well even during the virtual classes.

We are really confident that we will soon be able to come out of this unwanted situation of the pandemic and bring our lives back to normal.

With the above stated note, I present the NEWSLETTER for the month of November (Session 2020-21).

Feel free to contact me at info@birlaopenmindspatna.org

MERRY READING!

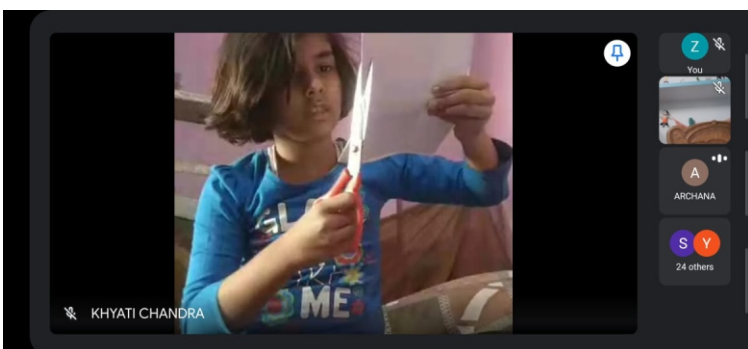

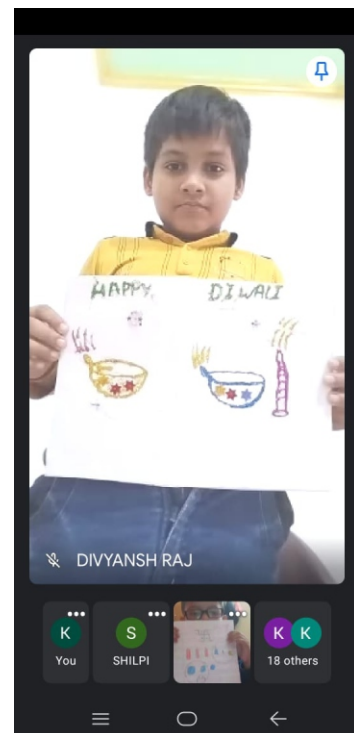

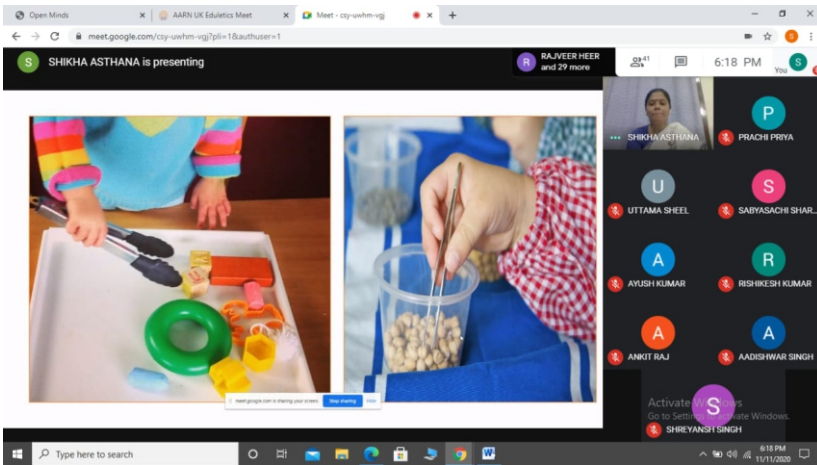

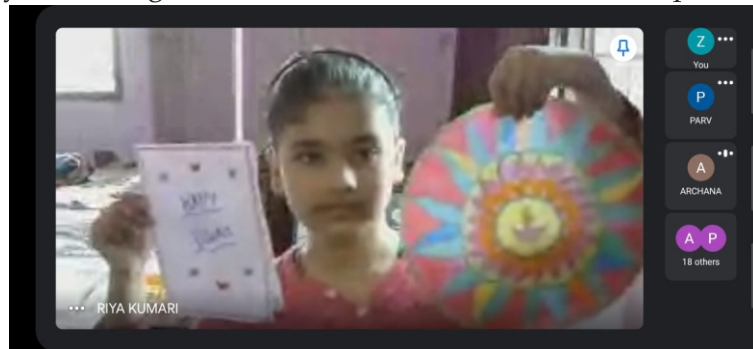

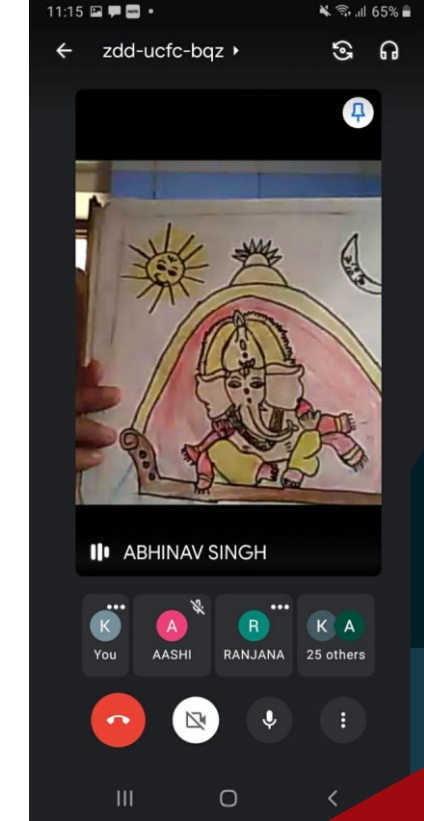

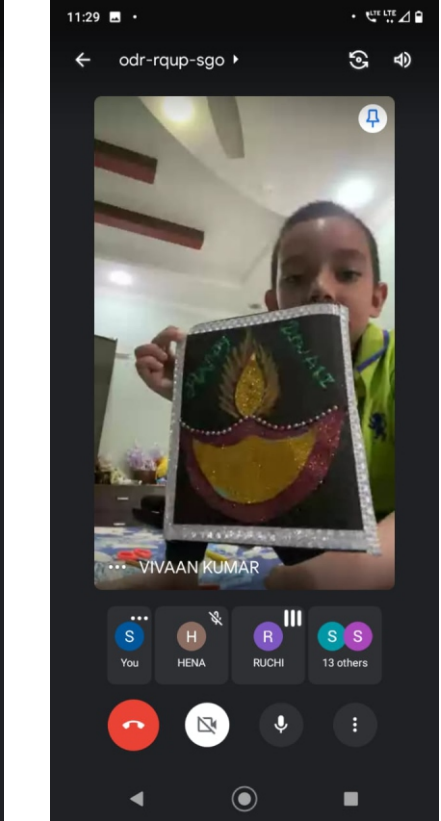

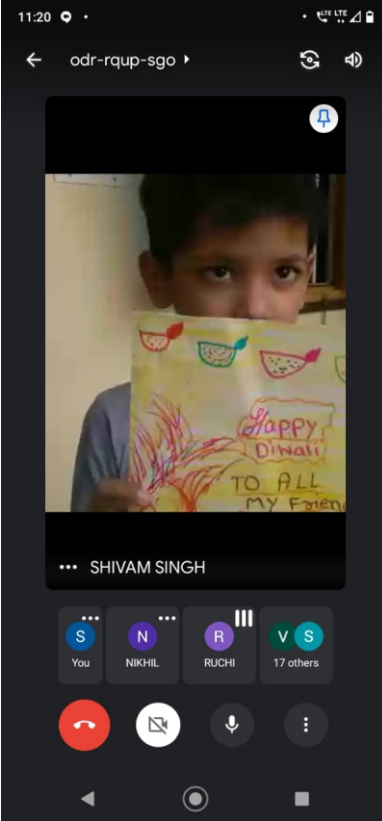

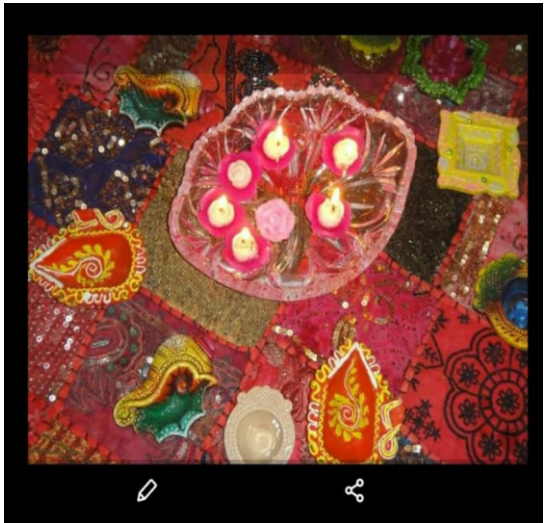

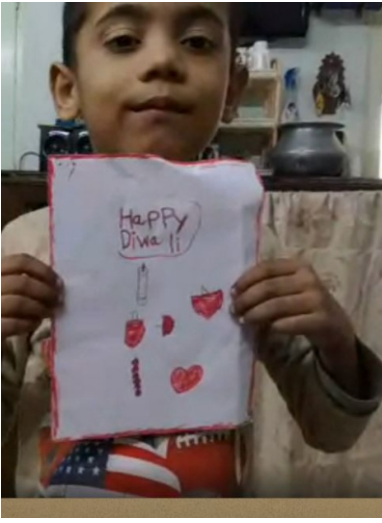

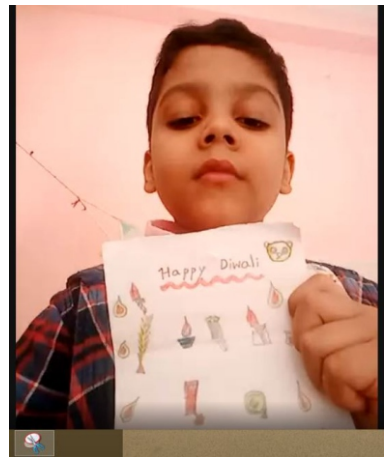

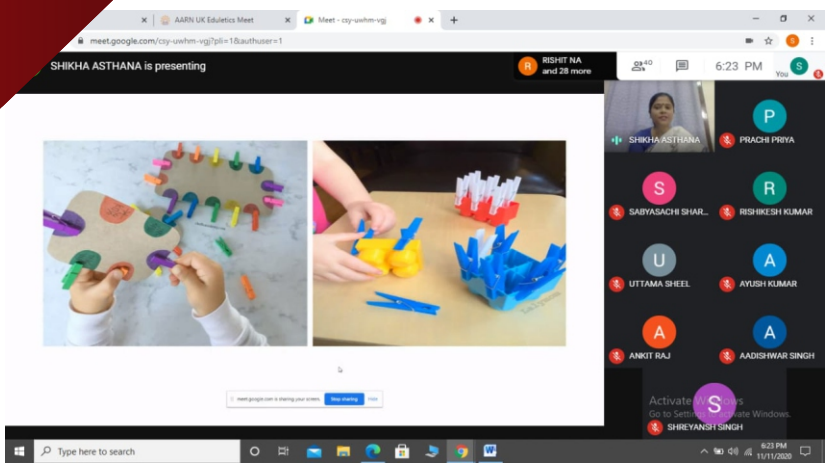

CHILDREN'S DAY CELEBRATIONS

The children of the present day will be the stakeholders of tomorrow. Today's students will be tomorrow's professionals. The ones jumping from here and there today without any botheration of the future are basically the future leaders of the nation. Their approach and personality will determine the kind of destiny that beckons the nation.

Nelson Mandela has aptly said: "Children are our greatest treasure. They are our future."

Keeping in mind the above quoted thought, OMK celebrated the Children's Day on 13.11.2020. Similar to the Teacher's Day Celebrations, the celebration was virtual and it was an excellent experience for the children. The Primary Wing students participated in a Card Making Activity and the chirpy students made a display of wonderful handmade cards. The activity made the day quite an enjoyable one and everyone had a great time. Down below are a few masterpieces:

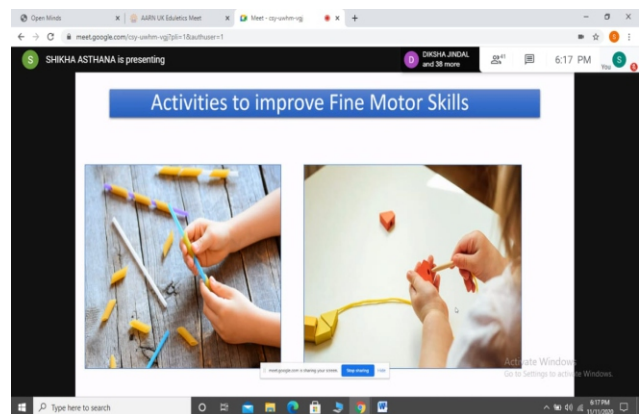

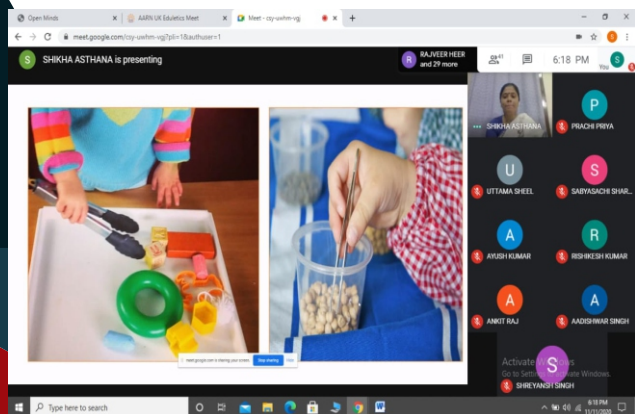

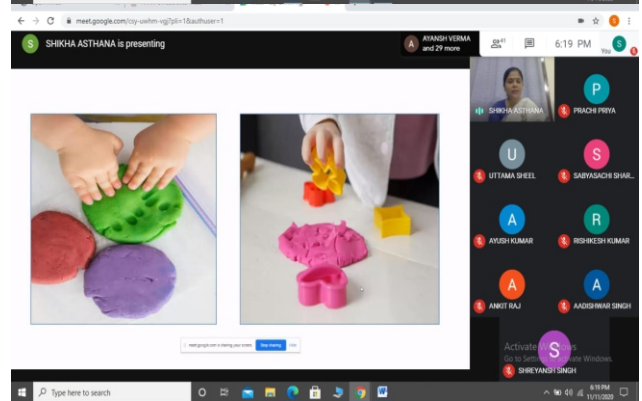

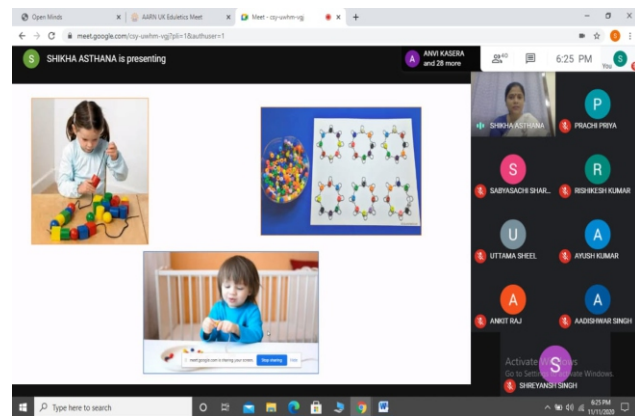

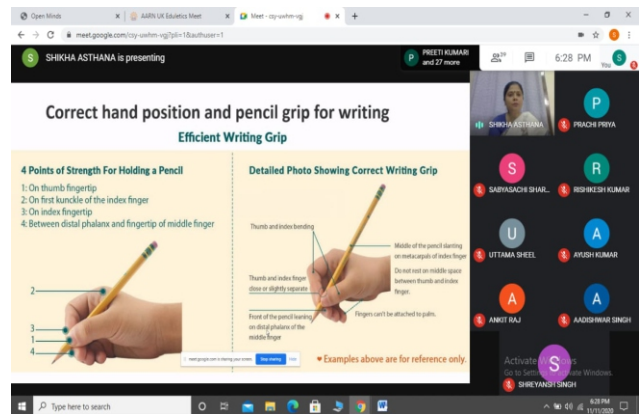

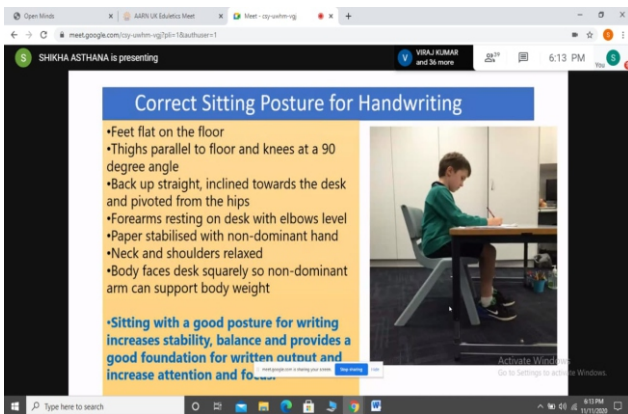

WEBINAR ON HANDWRITING IMPROVEMENT STRATEGY

Handwriting is a very important skill of the learning process. It is a fundamental aspect of day- to- day life. Good handwriting skill leads to a better academic performance.

Good and presentable written work helps build self confidence among students and simultaneously motivates them to have a consistent inclination towards writing tasks.

Taking into consideration the extreme importance of building and strengthening handwriting practices, a webinar highlighting various strategies of improving handwriting was conducted for students of Grades K2 and 1 on 08.11.2020, 26.11.2020 and 27.11.2020. Parents of Grades K2 and 1 students joined the webinar and they really had a very informative session. They all had praises for such an envisioned initiative taken by the school and found the strategies really effective in helping their wards improve their handwriting. We plan to organise more such sessions in the nearing future.

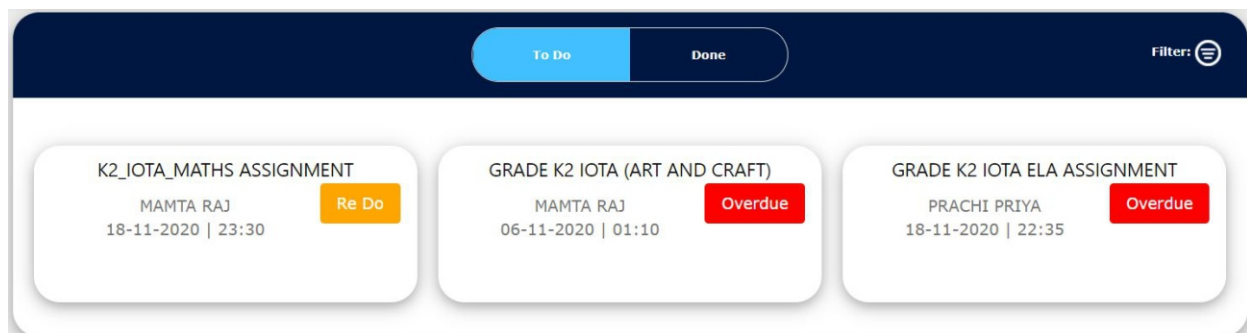

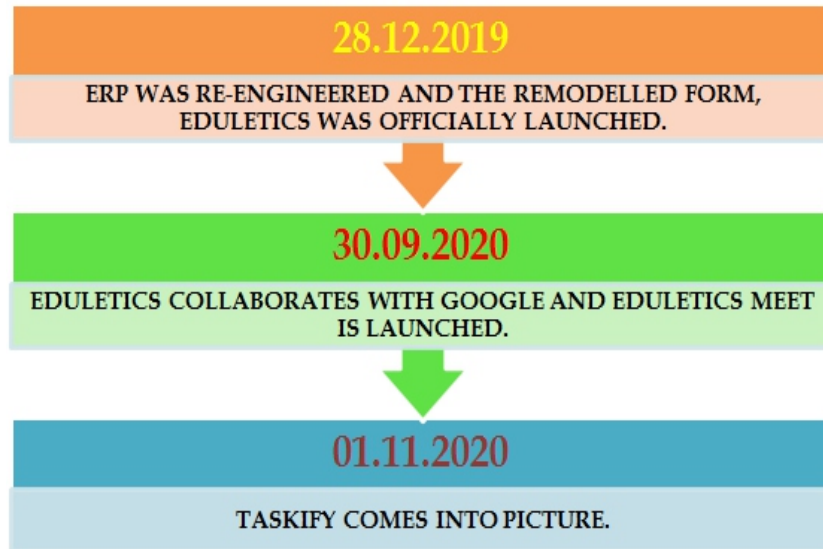

THE COALESCING OF TASKIFY INTO EDULETICS

As stated numerous times earlier, OMK completely believes in the principle of 'Change for betterment!' and always looks for areas where it can take the benchmark of betterment a bit higher. One of the most elemental changes in the zone of technology was the development of Eduletics.

Soon after the introduction of such a dynamic platform, OMK was successful in collaborating with a firm known for its worldwide repute, Google which led to the introduction of its very own platform for Online Sessions, Eduletics Meet on 30.09.2020. And now OMK stands with another marvel addition to Eduletics called Taskify.

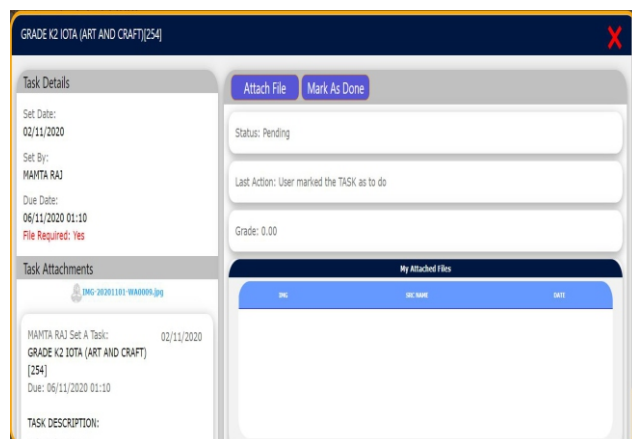

Let's draw a timeline of how Eduletics took shape.

The credit behind this stupendous addition goes to our young IT handler, Master Ashwin Raj Singh who is constantly being guided by our director and our IT Team.

Taskify is one such module of Eduletics that can prove to be of great help. Through this module, our students can remain connected with the teachers even after their classes. All the assigned tasks can be provided to the students using Taskify and simultaneously be received. It is a very secure platform and the tasks can be monitored with utmost vigilance.

For helping out the parents in the smooth usage of Taskify, training sessions for the parents of Primary Wing were conducted by our Admin Operations Coordinator, Mr. Pankaj Kumar.

END AND BEGINNING ARE THE UNDENIABLE TRUTHS. A DAY ENDS AND MARKS THE BEGINNING OF A NEW DAY, A DAY FULL OF OPPORTUNITIES. WE HAVE COMPLETED HALF OF THIS SESSION AND WE ARE READY TO CRUISE THROUGH THE OTHER HALF SUCCESSFULLY. WE HUMBLLY EXTEND OUR EMOTIONAL PROTESTATION OF GRATITUDE TO ALL OF YOU FOR RENDERING UNSHAKEABLE SUPPORT AND GUIDANCE AND FOR BECOMING A CONSTANT PARTNER IN ALL OUR WALKS.

HOPING TO EXPERIENCE THE SAME IN NEARING FUTURE!!
