"In the depth of winter, I finally learned that within me there lay an invincible summer."

Albert Camus

Life is one of ceaseless toil. Doubts may crop up in our mind. Obstacles may come on our way. But the spirit of perseverance should be kept intact in us as it allows us to forge ahead despite setbacks.

When we look back, we do not find any cause for regrets. We make all individuals believe in themselves and we know they will further find their way themselves. The fire burning inside our children's heart is mighty and is always ready to burn bright. Our students are meant to do great things and so they have done. Open Minds A Birla School has achieved laurels in varied inter-school competitions organized across the city.

Following our dreams can be both terrifying and exciting. However, fear of failure can only hold people back. We persist and persuade our pupils to dream. We here teach our stalwarts to master the obvious and create something that wasn't there before. If we give our best, our dreams will surely come to life as the success will be only ours.

**Happy Reading!**

## MANIFOLDNESS OF CBSE ACTIVITIES

The voluntary involvement of a student in co-curricular activities enriches his or her potency to hone their skills. CBSE brought in an array of activities last month helping students to gain a felicitous experience, boosting their morale. Open Minds A Birla School, Kankarbagh has always valued the importance of growth of our children. We encourage our tenacious students to participate in all the activities.

## THE NALANDA TRIP

Imagine being at the ruins of the world's oldest university - Nalanda of Bihar. The School has organized a trip to Nalanda for grades 10 and 12, giving them the taste of heritage and a knowledge of a bygone era of higher learning.

The most valuable and most instructive history has been treasured here.

Grade 10 & 12 all geared up for the trip to Nalanda!

Life is an expedition!

## The Nalanda Trip

A smile is a curve that sets everything straight.

## A SPLENDID JAUNT TO THE ZOO

A zoo is a place set to bring human beings closer to the wildlife. It is necessary for kids to enjoy the gift of nature. For our K2 kids the most exciting location was a visit to the zoo. For them, it had been a day of great fun and enjoyment.

A journey of a thousand miles must begin with a single step.

Glimpses of enthusiastic students of Grade K2 on the trip to the zoo.

Travel is an investment in yourself.

Cheerful faces of the little champs.

Travel is not reward for working, it's education for living.

## The Circle Time

A traveller without observation is a bird without wings.

We believe that the best education is out of experience.

Happiness is a journey, not a destination.

## WRITING COMPETITION

Practicing writing in the elementary school fosters confidence and benefits a child throughout their life. It facilitates learning in academics, communication and self-expression. The art of learning to write in school supports the development of critical thinking and problem solving-skills. The school perfectly understands the importance of writing as an essential part for the development of a child. We initiated a writing competition in Grades 1 and 2 to build in aplomb and appreciation for writing.

## EDIFICATION OF THE CONSTITUTION

On 26th November the school took the pledge noted down in the constitution. An assembly was organized by the Council Members to enrich the students with the significance of the constitution. Students across Grades 8 – 12 took oath showing their patriotism towards the country.

### The Assembly

Action is the foundation key to success.

## THE FEATHERS IN OUR CAP

We feel cuffed and vainglorious to announce that our students bagged a quantum of awards as they represented the school in varied activities: debates, quiz, dance and drama.
