ACTIVITIES OF THE MONTH

- LABOUR DAY
- PRE MID-TERM EXAM
- MOTHER'S DAY
- FELICITATION CEREMONY
- CRICKET MATCH

Principal's Desk

Dear Readers,

As the month of May unfurls its radiant tapestry, our scholastic voyage burgeons with a steadfast zeal for distinction and progression. Under the guiding star of our Annual Theme, **Cultivating Communicative Proficiency**, we delve deep into the essence of language and eloquence, creating a milieu where each utterance is a masterstroke, casting light upon our shared intellectual canvas.

Through a spectrum of dynamic activities and enriching experiences, we champion our students to voice their insights with poise and precision, establishing a solid groundwork for efficacious communication and meaningful exchange.

Our Developing Learners initiatives continue to thrive, offering bespoke support and nuanced strategies that cultivate the inherent promise within each pupil, shepherding them on a transformative odyssey of self-realization and advancement.

In celebrating the extraordinary feats and pivotal moments that embellish our educational passage, we salute the tenacity and esprit de corps of our academic fellowship. From the assiduous displays during our Pre Mid-Term Examinations to the sincere homage rendered on Labour's Day, each occasion stands as a tribute to our resolute pursuit of preeminence.

We extend our heartfelt thanks to the maternal beacons in our lives, whose constant affection and mentorship act as luminaries, guiding us through the vicissitudes and victories of our scholarly pursuits. We also laud the exemplary accomplishments of our students in the board examinations, whose commitment and steadfastness ignite inspiration within us all.

Amidst the solace of the summer interlude, our dedication to all-encompassing growth remains unshaken, as evidenced by the ongoing supplementary classes for Developing Learners. These sessions offer critical support and counsel, ensuring that each student is equipped with the essential instruments to achieve scholastic brilliance.

The ethos of fellowship and fair play showcased during the cricket encounter between the eleventh and twelfth graders, along with the Developing Learners, epitomizes the harmony and solidarity that is the hallmark of our institution.

As we navigate through May, we ponder our united expedition, imbued with gratitude for the chance to motivate, fortify, and elevate one another. With hearts brimming with appreciation and intellects ignited with potential, we welcome the dawn of a fresh epoch, collectively aspiring to etch an everlasting imprint upon the annals of time.

Sincerely,
A. Awasthi

Labour Day

In the gentle warmth of the first day of May, our school blossomed with the spirit of thankfulness. It was a day when every heart pulsated with gratitude, a day dedicated to those who are the backbone of our school's daily journey - our cherished drivers, conductors, didis and support staff. The middle wing students, with their innocent charm and earnest expressions, presented an assembly and skit that touched every soul present. Their performance was not just an act on the stage; it was a sincere

homage, a message delivered straight from the heart, resonating with respect and admiration for our everyday champions. This celebration was more than an event; it was a lesson in humility and recognition. It reminded us that every role is pivotal, every effort is significant, and every person is worthy of honour. The vibrant paintings, brimming with colours and emotions, stood as a tribute to our students' understanding of the profound impact of these unsung heroes. Let this day be the seed of continuous inspiration for our students, to recognize and honour the silent yet powerful contributions that keep our school a place of learning and warmth. Together, let's nurture this seed into a tree of perpetual kindness and gratitude, making our school a lighthouse of compassion in the world.

Pre Mid-Term

Tests, Tests All the Way...

Only in the dictionary, rest and relaxation come before work, in life they follow it. And we at OMK teach the future of India walk in harmony with life. That's why before the summer breaks begin, the students have to buckle up for Pre- Midterm Examinations to help themselves assess how much they have learnt and assimilated from the learning sessions conducted in classrooms.

This session too, from 6 to 11 May, 2024, the little geniuses were seen in absolute concentration, pouring whatever they knew on exam answer-sheets. Every morning, during this period, started with solemn seriousness and then gave way to relief and satisfaction when they boarded the buses to get back home. A few glimpses...

HAPPY
Mother's
DAY

Oh Mother, You Are My World!

Being a mother is being everything at a time. It's shouldering a huge expectation. It's about being expected to be omnipresent, omniscient and a panacea to all the problems a child faces in this world. It's not less than being God. That's why they say, " Since God couldn't be available everywhere at a time, he created mothers".

The moment a child is born, an ordinary woman turns into something extraordinary. There are no comparisons to equate with this transformation. A father may be adored and emulated, but a mother becomes one with the child his or her mirror-self.

Therefore, on this Mother's Day, the little OMKites, the K2 students, got together to express their heartfelt gratitude to all the mothers of the world through several interesting activities leaving the audience gasp in awe at their sheer power of expressing the gratitude and emotions for the mothers. A few glimpses...

Heartiest congratulations for your gilt-edged performance!

Open Minds- A Birla School, Kankarbagh smugs on your achievement.

Celebrating Success with Elan

It's said, "When the going gets tough, the tough get going". It's life's to throw tests before us, it's ours to come out of them with flying colours with our diligence, perseverance and resilience.

Yes, OMK had fixed 17th of May, 2024 to felicitate the toppers of grade X and XII for their show of incredibly strong character at this test called Board Exams 2024. And why not, after all, they had proven their mettle in the exams and showed the world they had all in them to touch the sky in any field they take.

Thus, the day was planned not only to appreciate their success with words, gifts and tokens, but also to say we are proud of your feats and will always be there to support you wherever you need our assistance. It was the day to celebrate the extraordinary bond that has existed so far and will keep building on further.

Scholarship schemes were announced if they decided to continue in 11th and enjoy the privileges of sound academic assistance and guidance.

The faces beaming with pride were the testimony to the success of the day. A few visual memories...

Cricket Only Cricket!

Cricket is a gentlemen's game and holds the most esteemed status in this country. Just a mention of it creates a spark in the eyes of the youngsters. In every nook and corner, you can find little Tendulkars, Dhonis, Kohlis and Bumras emulating the intricate shots and moves of their heroes they have been watching with extraordinary attention.

To celebrate this spirit of cricket, OMK organized a limited hour tournament on 25 May, 2024. The participating students played both the players and the audience. Their spirited rants and shouts filled the air with excitement. Teachers from different streams eagerly filled up the spot of commentators. The winning team and the runner ups were given trophies at the end. It was a well-orchestrated event. A look...
