November 2025

Principal's Desk

Dear Readers,

As the resplendent season of festivals gently receded and its warmth lingered in our memories, our school returned to its calm academic rhythm. The students realigned their focus after days of celebration and prepared themselves for the Post Mid-Term Examination with admirable sincerity and quiet determination. Their discipline and drive filled us with a deep sense of pride.

This month also brought us an experience of immense significance – the conferment of our CBSE affiliation. This honour was not merely an administrative accomplishment but a moment filled with emotional depth. It affirmed our shared educational foresight and the extraordinary trust our parents placed in us. It will always remain a cherished chapter in our school's journey.

During these days the campus thrummed with vibrant energy as practice sessions for our Annual Function progressed. Each rehearsal space echoed with the children's enthusiasm and artistic spirit as they shaped performances that promised elegance and charm. Their creativity and heartfelt effort created an atmosphere brimming with anticipation.

We look forward to welcoming our dear parents in December for the Annual Function which is expected to be an evening of aesthetic splendour and youthful brilliance. It is a joy to imagine our students on stage radiating confidence and grace.

As we move towards the end of this term we extend our warm wishes to all students who have appeared for their examinations. We also hope to meet our parents soon during the Post Mid-Term PTM where we would reflect together on each child's growth and continue strengthening our bond as a school community.

Wishing you serenity hope and continued blossoming!

Happy reading!

Warm regards,

Team EBS

Lab Visit

BEAKERS, BUBBLES AND BRILLIANT MINDS!

Keeping the spirit high the recent lab visit brought science to life in the most fascinating way.

Textbook concepts found their voice as students stepped into a space where theory met reality. With curiosity gleaming in their eyes, they explored instruments, observed experiments and discovered that learning is not just about reading but about doing. Beakers bubbled, lenses focused and ideas came alive as young minds touched the living pulse of science.

The experience went far beyond observation, it awakened imagination and teamwork. Each experiment performed was a reminder that knowledge grows when curiosity leads the way. Students left the lab inspired, their minds brimming with questions and possibilities. The visit reaffirmed that every discovery begins with a single "why"?!

Lab Visit

Science made
clearer through
observation.

Lab Visit

Hands-on learning

"Tell me and I forget,
teach me and I may
remember, involve me
and I learn."
- Benjamin Franklin

Annual function practice

The Stage Awaits

The campus is alive with rhythm and excitement as students prepare for the much awaited Annual Function. Classrooms echo with laughter, music fills the corridors and every rehearsal brings the performance one step closer to perfection. From dance steps to dialogues practice, each student contributes their energy and enthusiasm to create something truly memorable.

*"Great things are done
by a series of small things
brought together."
-Vincent van Gogh*

*Rehearsals carving
confidence and grace.*

Young performers crafting unforgettable moments.

Every
act
rising
with
effort.

*Steps syncing
towards the
grand stage.*

**“Collaboration is
multiplication.”**
-J. C Maxwell

Behind every synchronized
move and every note sung lies
teamwork, dedication and
countless hours of preparation.
These practices are not just
about perfecting a
performance, they are about
discovering creativity, building
confidence and celebrating
togetherness.

Online Classes

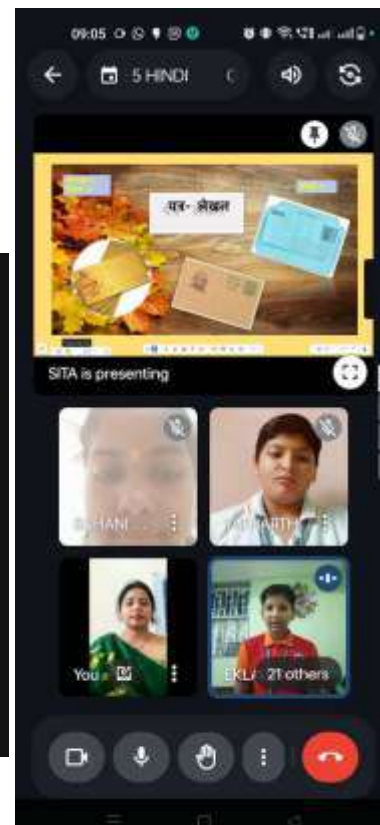

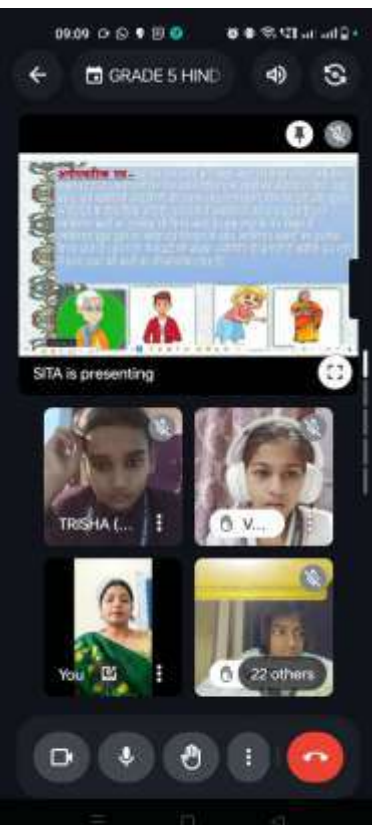

Learning Beyond Walls: The Online Classroom Experience

Screens flickered to life, transforming homes into classrooms and rooms into spaces of curiosity. The shift to online learning brought with it a new rhythm- one that blended technology with perseverance. Each student logged in not just to attend a class but to stay connected to the spirit of learning. Through virtual discussions, digital notebooks and quiet focus behind screens, they proved that true education adapts and endures.

"Learning gives creativity, creativity leads to thinking, thinking provides knowledge and knowledge makes you great."

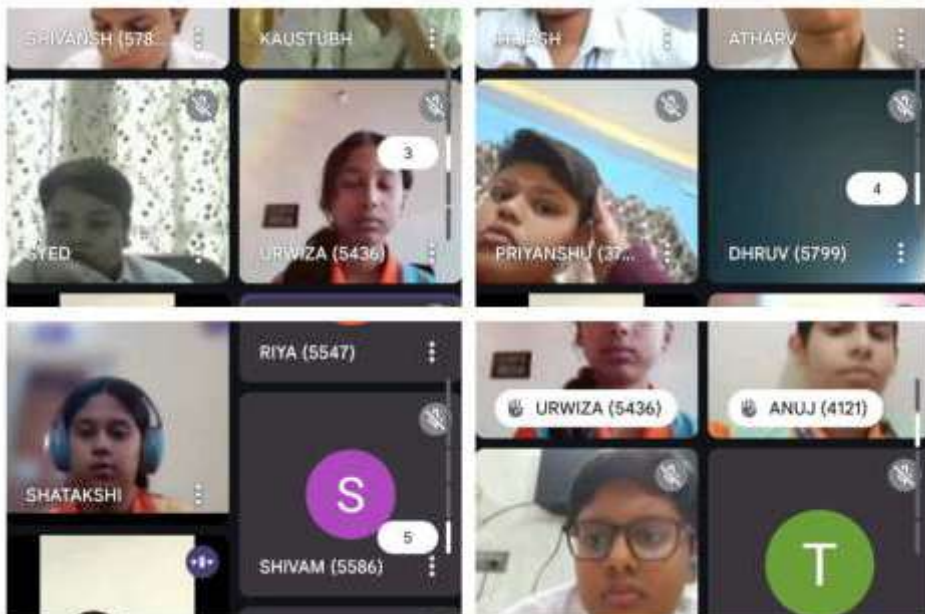

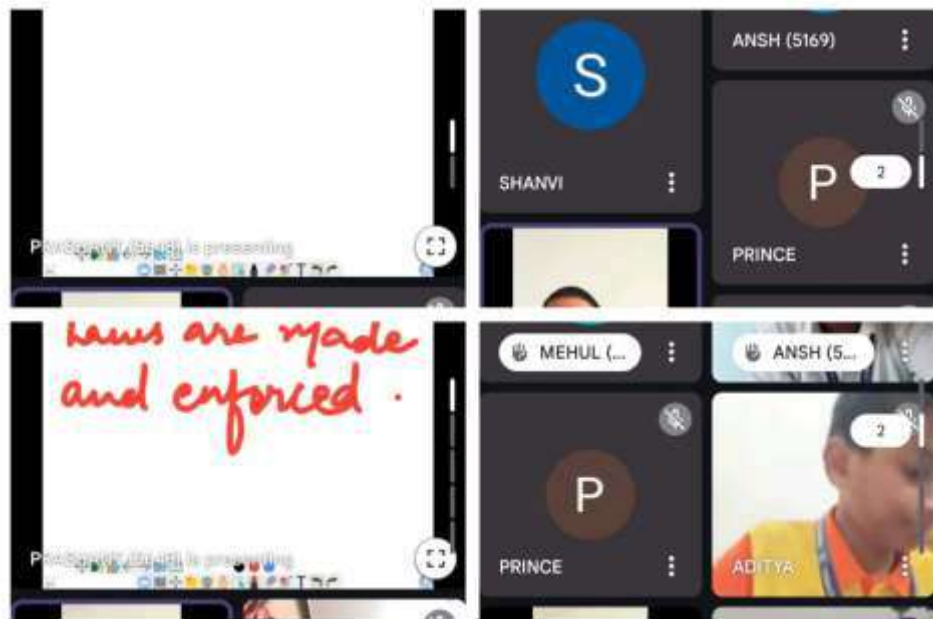

- A.P.J. Abdul Kalam

Online Classes

The online classroom became more than a digital space, it became a reflection of resilience and adaptability. Challenges like connectivity, distractions and distance were met with patience and creativity. Students learned not only their subjects but also the art of responsibility and self-discipline.

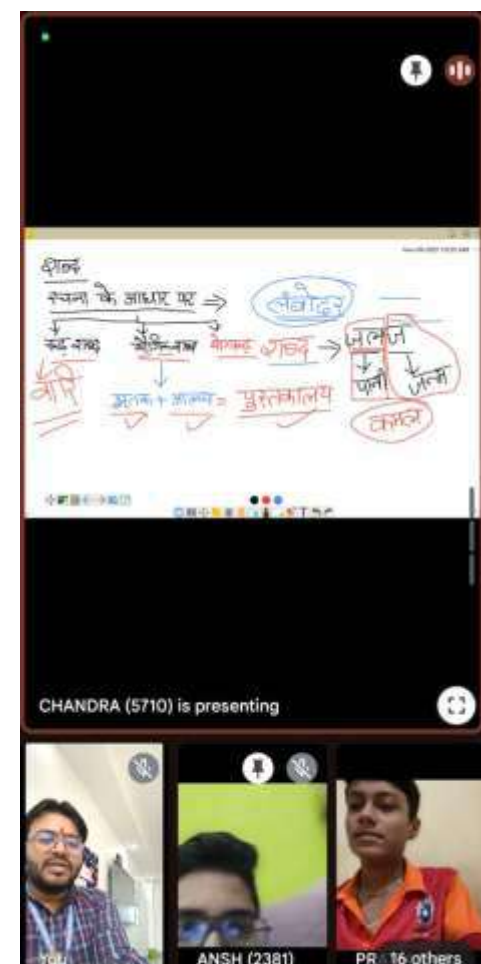

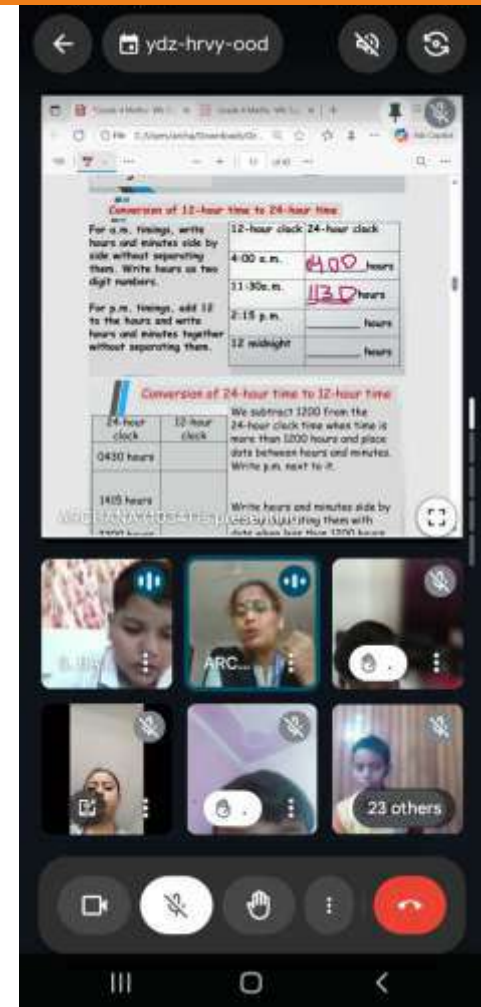

"Education is not the filling of a pail, but the lighting of a fire."

– W. B. Yeats

connecting
curious minds.*

Online Classes

Learning continues through every screen.

Prepared. Tested. Transformed.

Time moved gently and before we knew it, the Post Mid-Term Examinations had come and gone. What began as weeks of preparation and persistence found its purpose in these quiet days of testing. Each student brought with them not just their notebooks and pens but also the patience, discipline and understanding they had nurtured along the way.

These exams were not simply a test of memory- they became a mirror of progress. Every answer written reflected effort and every moment of calm before the bell revealed quiet strength.

In every classroom, determination took shape- in the neat handwriting of solutions, in the focused eyes over question papers and in the sigh of relief after a paper well written. The process reminded us that learning is not measured only in marks but in how much we evolve through the journey.

"There is nothing noble in being superior to your fellow man; true nobility is being superior to your former self." – Ernest Hemingway

Effort in
every line!

**Courage on
the desk!**

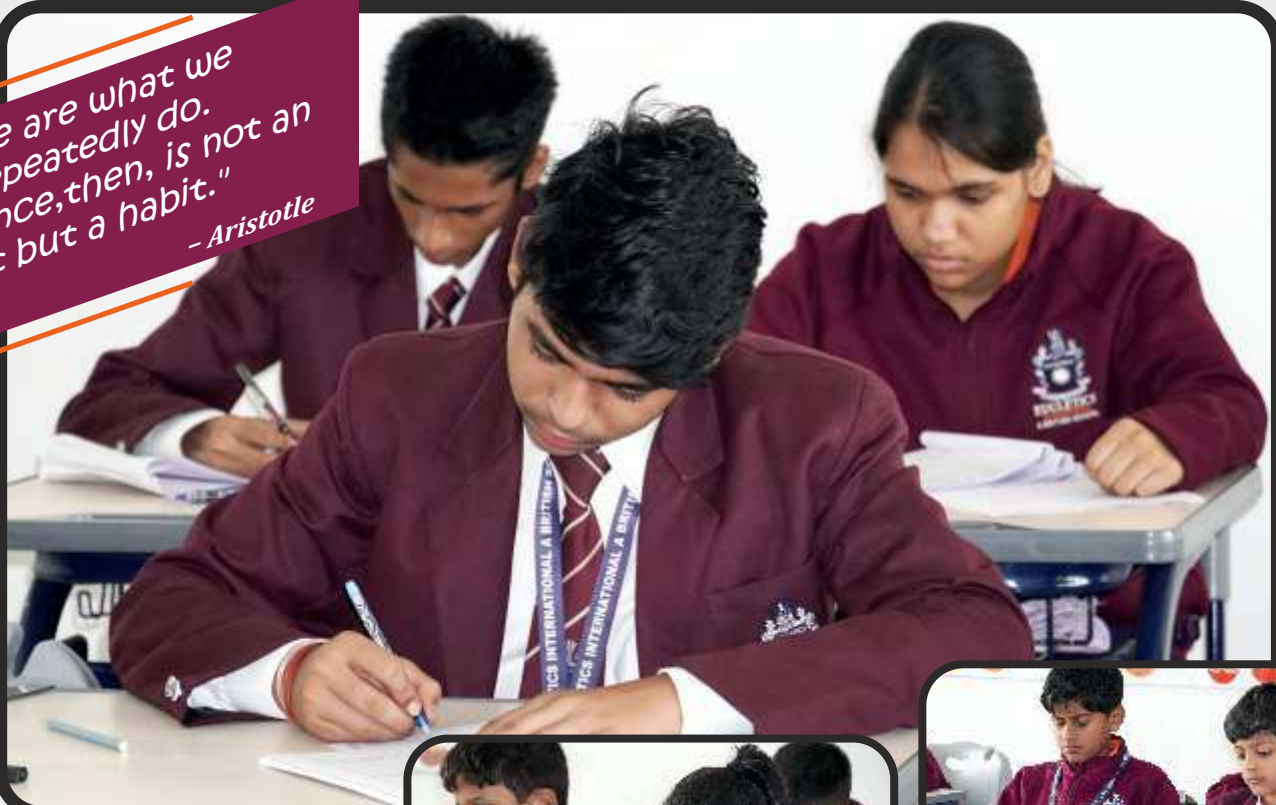

**Strength
in Stillness!**

"We are what we repeatedly do. Excellence, then, is not an act but a habit."
- Aristotle

Post Mid-Term exams, a sense of renewal filled the air. The experience taught each learner to pause, reflect and prepare to move forward with greater clarity. Mistakes became lessons and lessons became stepping stones.

As we step into the next phase of the academic year, let us remember that success is not a finish line but a continuous journey. With every exam faced and every challenge embraced, our students are not just prepared to perform—they are prepared to grow with absolute confidence!

*Success is crafted
by consistent effort,
not occasional inspiration.*

SCIENCE OLYMPIAD FOUNDATION

Olympiads: A step beyond ordinary learning

The SOF Science and Mathematics Examinations were conducted with commendable efficacy and offered students a distinguished platform to demonstrate their intellectual acumen. The Science Olympiad ignited curiosity and scientific insight while the Mathematics Olympiad fostered clarity of thought, logical finesse and inventive problem solving. Together they stood as enriching avenues that celebrated diligence and academic aspiration.

Such Olympiads hold profound significance in a learner's educational journey. They deepen understanding, elevate analytical thinking and encourage students to move beyond conventional learning. Participation empowers young minds with confidence and a broader academic outlook, shaping them into dedicated scholars prepared to excel in every future pursuit.

The mind grows stronger every time it dares to question.

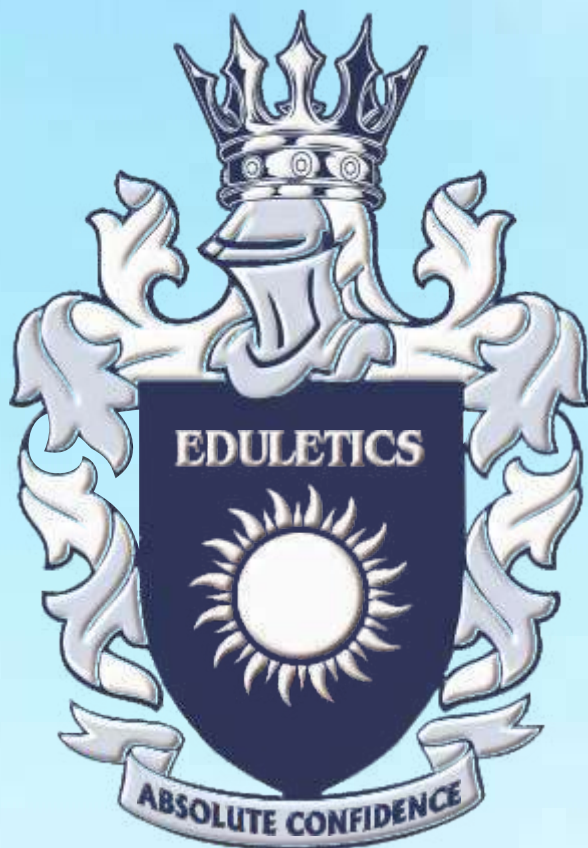

*Achievement
begins where
hesitation
ends.*

*Academic strength
is not measured by
scores but by the
courage to
strive for
more.*
