February 2026

Principal's Desk

Dear Readers
Greetings!

As we arrive close to the completion of two full years of our academic journey, a profound and almost sovereign sense of fulfillment envelops us, compelling a quiet yet powerful contemplation of time, a silent architect of transformation. Time, in its unfaltering cadence, has neither hurried nor halted, yet within its measured rhythm it has orchestrated change of remarkable magnitude. It has carried us from tentative beginnings to assured strides, from aspiration to attainment. When we cast our gaze backward to where we once stood and behold where we stand today, the distance travelled feels luminous, shaped not merely by circumstance but by persistent conviction and an unassailable faith in our collective purpose.

Now, as we bid adieu to the second month of 2026 and draw nearer to the denouement of the curriculum year 2025 to 2026, we pause in reverent acknowledgement of the months gone by and the achievements they underscore. It was never only the challenges that defined us, but the shared resolve that transmuted effort into excellence and intention into impact. We remain humbled in recognizing that every individual contribution, whether quiet or conspicuous, has been instrumental in sculpting the weight of success we together celebrate. What stands before us today is not a singular accomplishment, but a shared triumph, etched with dedication, collaboration and an enduring belief in what we are capable of achieving together.

February has unfolded as a month of distinction and celebration within the school community. We had the privilege of hosting the felicitation ceremony, a graceful occasion dedicated to honouring student accomplishment across the inter house competitions conducted throughout the campus. Medals and citations were conferred across all houses and club domains, acknowledging diligence, finesse and spirited participation. Each accolade represents not merely victory but cultivated effort and an awakened sense of purpose in every learner.

In preparation for the final term examination, a carefully designed revision week was conducted across all grades, fostering consolidation of concepts and academic clarity. Classrooms became spaces of deliberate reflection and intellectual sharpening, enabling students to revisit, refine and reaffirm their learning. As they now undertake their final assessments, we observe a marked transformation in their confidence, scholastic discipline and interpretive ability. The year long journey has shaped them into more assured and perceptive learners, ready to ascend to the next grade with earned conviction.

We also wish to inform you that the Parent Teacher Meeting is scheduled for the month of March. We look forward to a thoughtful and constructive interaction, as we continue this shared academic partnership and collectively nurture the onward progress of every learner.

We wish you a confident and enjoyable reading experience!

Warm regards

Principal
Team EBS

Excursion to Rajgir

Heritage met hope

The educational sojourn to Rajgir unfolded as a quiet pilgrimage for the students of Grades 7, 8 and 9. Within the sanctified calm of ancient temples and the contemplative hush of Venu Vana, they encountered a stillness that seemed to murmur chronicles of antiquity. At Veerayatan, the ethos of devotion and service evoked a gentle introspection, as though history itself extended a benediction. The journey momentarily disentangled them from routine and ushered them into a rarer awareness of legacy and inner poise.

The culminating resonance awaited them at the magnificent Rajgir International Cricket Stadium, where scale and structure seemed to enshrine aspiration. Standing within its vast precincts, they felt the quiet surge of possibility, as if ambition had assumed tangible form. In that expansive arena, youthful vision found amplitude and silent resolutions took root. They returned not merely enlightened by sights visited, but inwardly enlarged, carrying with them a subtler confidence and a broadened horizon of dreams.

Journeys through history often become journeys within the self.

*Sacred places
do not just stand
in stone, they
awaken thought.*

*When young
minds travel,
silent
transformations
begin.*

*Heritage is the
quiet tutor that
speaks without
a classroom.*

Stillness teaches what noise never can.

*To walk through
legacy is to widen
one's own horizon.*

Excursion to Science Centre

A day where science was not just taught — it was lived!

Students of grades 2 to 6 enjoyed an engaging and immersive learning experience at the **Shrikrishna Science Centre**, located near Gandhi Maidan, Patna. Established in 1978 and named after Bihar's first Chief Minister Dr. Shrikrishna Singh, this centre is the state's first regional science museum operating under the **National Council of Science Museums**.

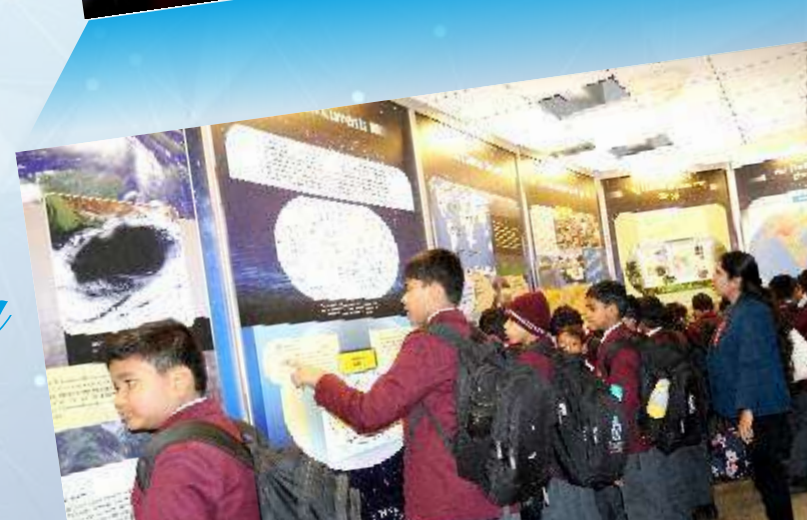

Inside the centre, students explored **hands-on galleries** that made science fun and easy to understand. They enjoyed the **Fun Science Gallery** where basic principles of physics and mathematics came alive through interactive displays. **The Mirrors & Images Gallery** delighted learners with optical illusions and reflective tricks while the **Evolution Gallery** presented the story of life on Earth, in a visually compelling way.

Outdoors, the Science Park extended learning beyond the galleries with large scale working model of levers, sound tubes and pulleys, allowing students to experience principles of science through movement and play.

This visit helped bridge classroom lessons with real-world science, inspiring curiosity, questioning and hands-on discovery in young minds.

*Science is not
just a subject -
it's a way of seeing
the world.*

*Curiosity is the spark
and learning is the experiment.*

*Every exhibit whispers:
try, touch, think, discover.*

Excursion to

PATNA ZOO

Little Learners in the Wild!

Our little explorers from **K1 to Grade 1** had a magical day at **Sanjay Gandhi Biological Park**, a beautiful space where nature and learning meet.

The day was a reminder that the best learning begins with wonder and nature is the greatest teacher of all. The visit nurtured curiosity, respect for wildlife and a deeper connection with the living world. It became a joyful journey of learning and discovery that will stay with them for a long time.

As part of their science journey, students stepped into a living world of wonder. Learning was no longer on pages but before their eyes. They saw the quiet strength of animals, the colors of birds and the rhythms of nature. Each moment became a memory. Every sight turned into a lesson from the wild.

"Roar means hello in tiger's language!"

*"Tiny feet,
big adventure
welcome
to the wild!"*

*"Learning
is more fun
when it has
feathers
and fur."*

*"We came,
we saw, we went'
WOW!"*

Felicitation Ceremony

Small Stars, Big Moments!

Students of Eduletics International brought distinction and pride to the school with a remarkable showing at the Talking Puppet Competition organised by Baldwin Academy, Patna. Chayan Golcha of Grade 3 Delta emerged as a winner, captivating the audience through expressive storytelling and confident stage presence, where a simple puppet became a living voice of imagination. His performance blended creativity with clarity and charm, reflecting the school's culture of nurturing articulate expression and fearless young communicators.

Adding equal sparkle to the celebrations, our little learners from Grades K1 and K2 won medals in various race competitions, turning every stride into a story of joy and courage. With eager hearts and determined steps, they ran not just to finish lines but toward confidence and self discovery. These moments of applause and achievement are gentle beginnings of a lifelong love for participation, grit and excellence.

"When young minds perform with heart, success follows naturally."

"Every stage and every track can become the start of a dream."

"Small steps in childhood create big stories of achievement."

Final Term Examination

Believe. Breathe. Begin.

The Final Term Examinations at Eduletics International marked the closing of another meaningful chapter in our academic year.

In quiet halls filled with focus and determination, students gave their best, not just writing answers but giving voice to months of learning, effort and growth. Each paper became a reflection of perseverance, discipline and the courage to rise to the moment.

We extend our heartfelt appreciation to our teachers and parents, whose constant guidance formed the steady foundation behind every learner's progress.

As the term concludes, we are reminded that examinations are not merely measures of performance but milestones of progress – gentle gateways to brighter horizons.

Every effort matters and every learner shines in their own way, beyond marks and metrics.

"Success is written not in marks but in sincere effort."

"Every answer carries the echo of hard work."

"An examination is a moment to shine with what you have learned."
