From the Principal's Desk

Dear Readers,

As winter slowly loosens its gentle hold and the whisper of spring begins to stir the air, February stands before us as both a pause and a promise — a quiet conclusion and a luminous beginning. In this delicate interval between what has been and what is yet to bloom, our school breathes deeply, gathers strength, and prepares to rise anew.

Our teachers, the silent architects of tomorrow, are immersed in thoughtful labour. Beyond the visible routines of the classroom, they are engaged in a deeper journey — designing curriculum with care, refining syllabi with vision, and polishing their own abilities so that each day they may step before our children not merely as instructors, but as ever-evolving learners themselves. For what greater gift can an educator offer than the example of lifelong growth?

With this spirit, we have initiated a meaningful training programme — Student Aimed Active Reflecting Thinking based Approach for Knowledge Construction (SAARTHAK). True to its name, SAARTHAK seeks to make learning purposeful. It invites our teachers to transform classrooms into vibrant spaces where curiosity awakens, reflection deepens understanding, and knowledge is not delivered but discovered. In nurturing thoughtful minds, we sow the seeds of a more compassionate and enlightened society.

Our Grade X and XII students now stand at a threshold — prepared, determined, and yet carrying the natural tremor that accompanies every significant milestone. Examinations are not merely tests of memory; they are moments of self-discovery. We surround them with our unwavering faith and heartfelt blessings. The Senior Academic Team visits the centre to meet them on each day of their Board Examination, offering gentle counsel and last-minute guidance — not only strategies for answering questions, but reassurance for the spirit.

Across the campus, Final Term Examinations echo through the corridors of every grade. Yet assessment, for us, is not an end. It is a mirror — reflecting strengths, revealing gaps, and guiding us toward wiser strategies. Each evaluation becomes an opportunity to refine our methods, to make learning more inclusive, more meaningful, and more humane.

All our endeavours converge toward a single aspiration: to shape skilled minds and sensitive hearts — citizens who will not only build the future, but ennoble it.

As you turn the pages ahead, may you find in them the quiet pride of shared effort, the warmth of collective purpose, and the hope of new beginnings.

With faith in tomorrow and gratitude for today.

Sincerely,

A. Awasthi

EDITORS SPEAK

Dear Reader,

As February arrives, it carries with it a quiet intensity. The mornings feel purposeful, the classrooms more attentive, and every ticking second seems to echo one message, the time has come. February is not just another month in the academic calendar; it is a turning point, especially for each one of our students.

For class 10 and 12, the board examinations stand right at the doorstep. Months of learning, countless revisions, practice papers, discussions and moments of doubt have all led to this phase. Yet beyond the nervousness lies something stronger; determination. Board exams are not merely tests of memory; they are reflections of perseverance, discipline, and growth.

At the same time, preparations for the Annual Examinations 2026 are in full swing for the rest of the school. February reminds us that consistency is the true key to confidence. Every chapter revised and every concept understood adds another brick to the foundation of success.

In this atmosphere of preparation, the inspiring initiative Pariksha Pe Charcha, led by our Honourable Prime Minister Narendra Modi, offers a refreshing perspective. The message resonates deeply, exams are important, but they do not define one's entire future. A calm mind and a determined heart can overcome any challenge.

February is, therefore, both an ending and a beginning. It marks the culmination of one academic journey and the threshold of another. For every student, it is a reminder that every step taken today shapes the path ahead.

Let this month be remembered not for stress, but for strength. Not for anxiety, but for ambition. May our students walk into their examinations with steady confidence and walk out with the satisfaction of having given their best.

As we move forward, let us embrace February as a month of courage, commitment, and new beginnings, because every ending in school life quietly prepares us for a finer chapter ahead.

Yours truly,
The Edit Team

Pariksha Pe Charcha 2026

Fear Not, Says the Nation!

For some years now, India has been running a fantastic program to help students get over their fear of exams. This brilliant idea came straight from our Hon'ble Prime Minister, Shri Narendra Modi. He hand-picked students from all over the country based on their answers to a government survey.

"A happy mind is a learning mind." — *Anthony T. Hincks*

This program happens right before the big Board exams for 10th and 12th graders. They pick a certain number of kids from every corner of the country using a simple, but really effective, method. These kids then get to have a face-to-face chat with the Prime Minister.

During these engaging conversations and Q&A sessions, which go on for quite a while, the PM tries to any exam fear the children might have. It's really amazing how easily and thoughtfully he talks with them.

Here at OMK, all the middle and senior grade students gather in the auditorium to watch this program on the big screen. You can tell how effective it is by how vigorously the children clap when other participating kids ask questions and the Prime Minister gives his unique solutions.

Pariksha Pe Charcha 2026

Don't stop when you're tired. Stop when you're done.

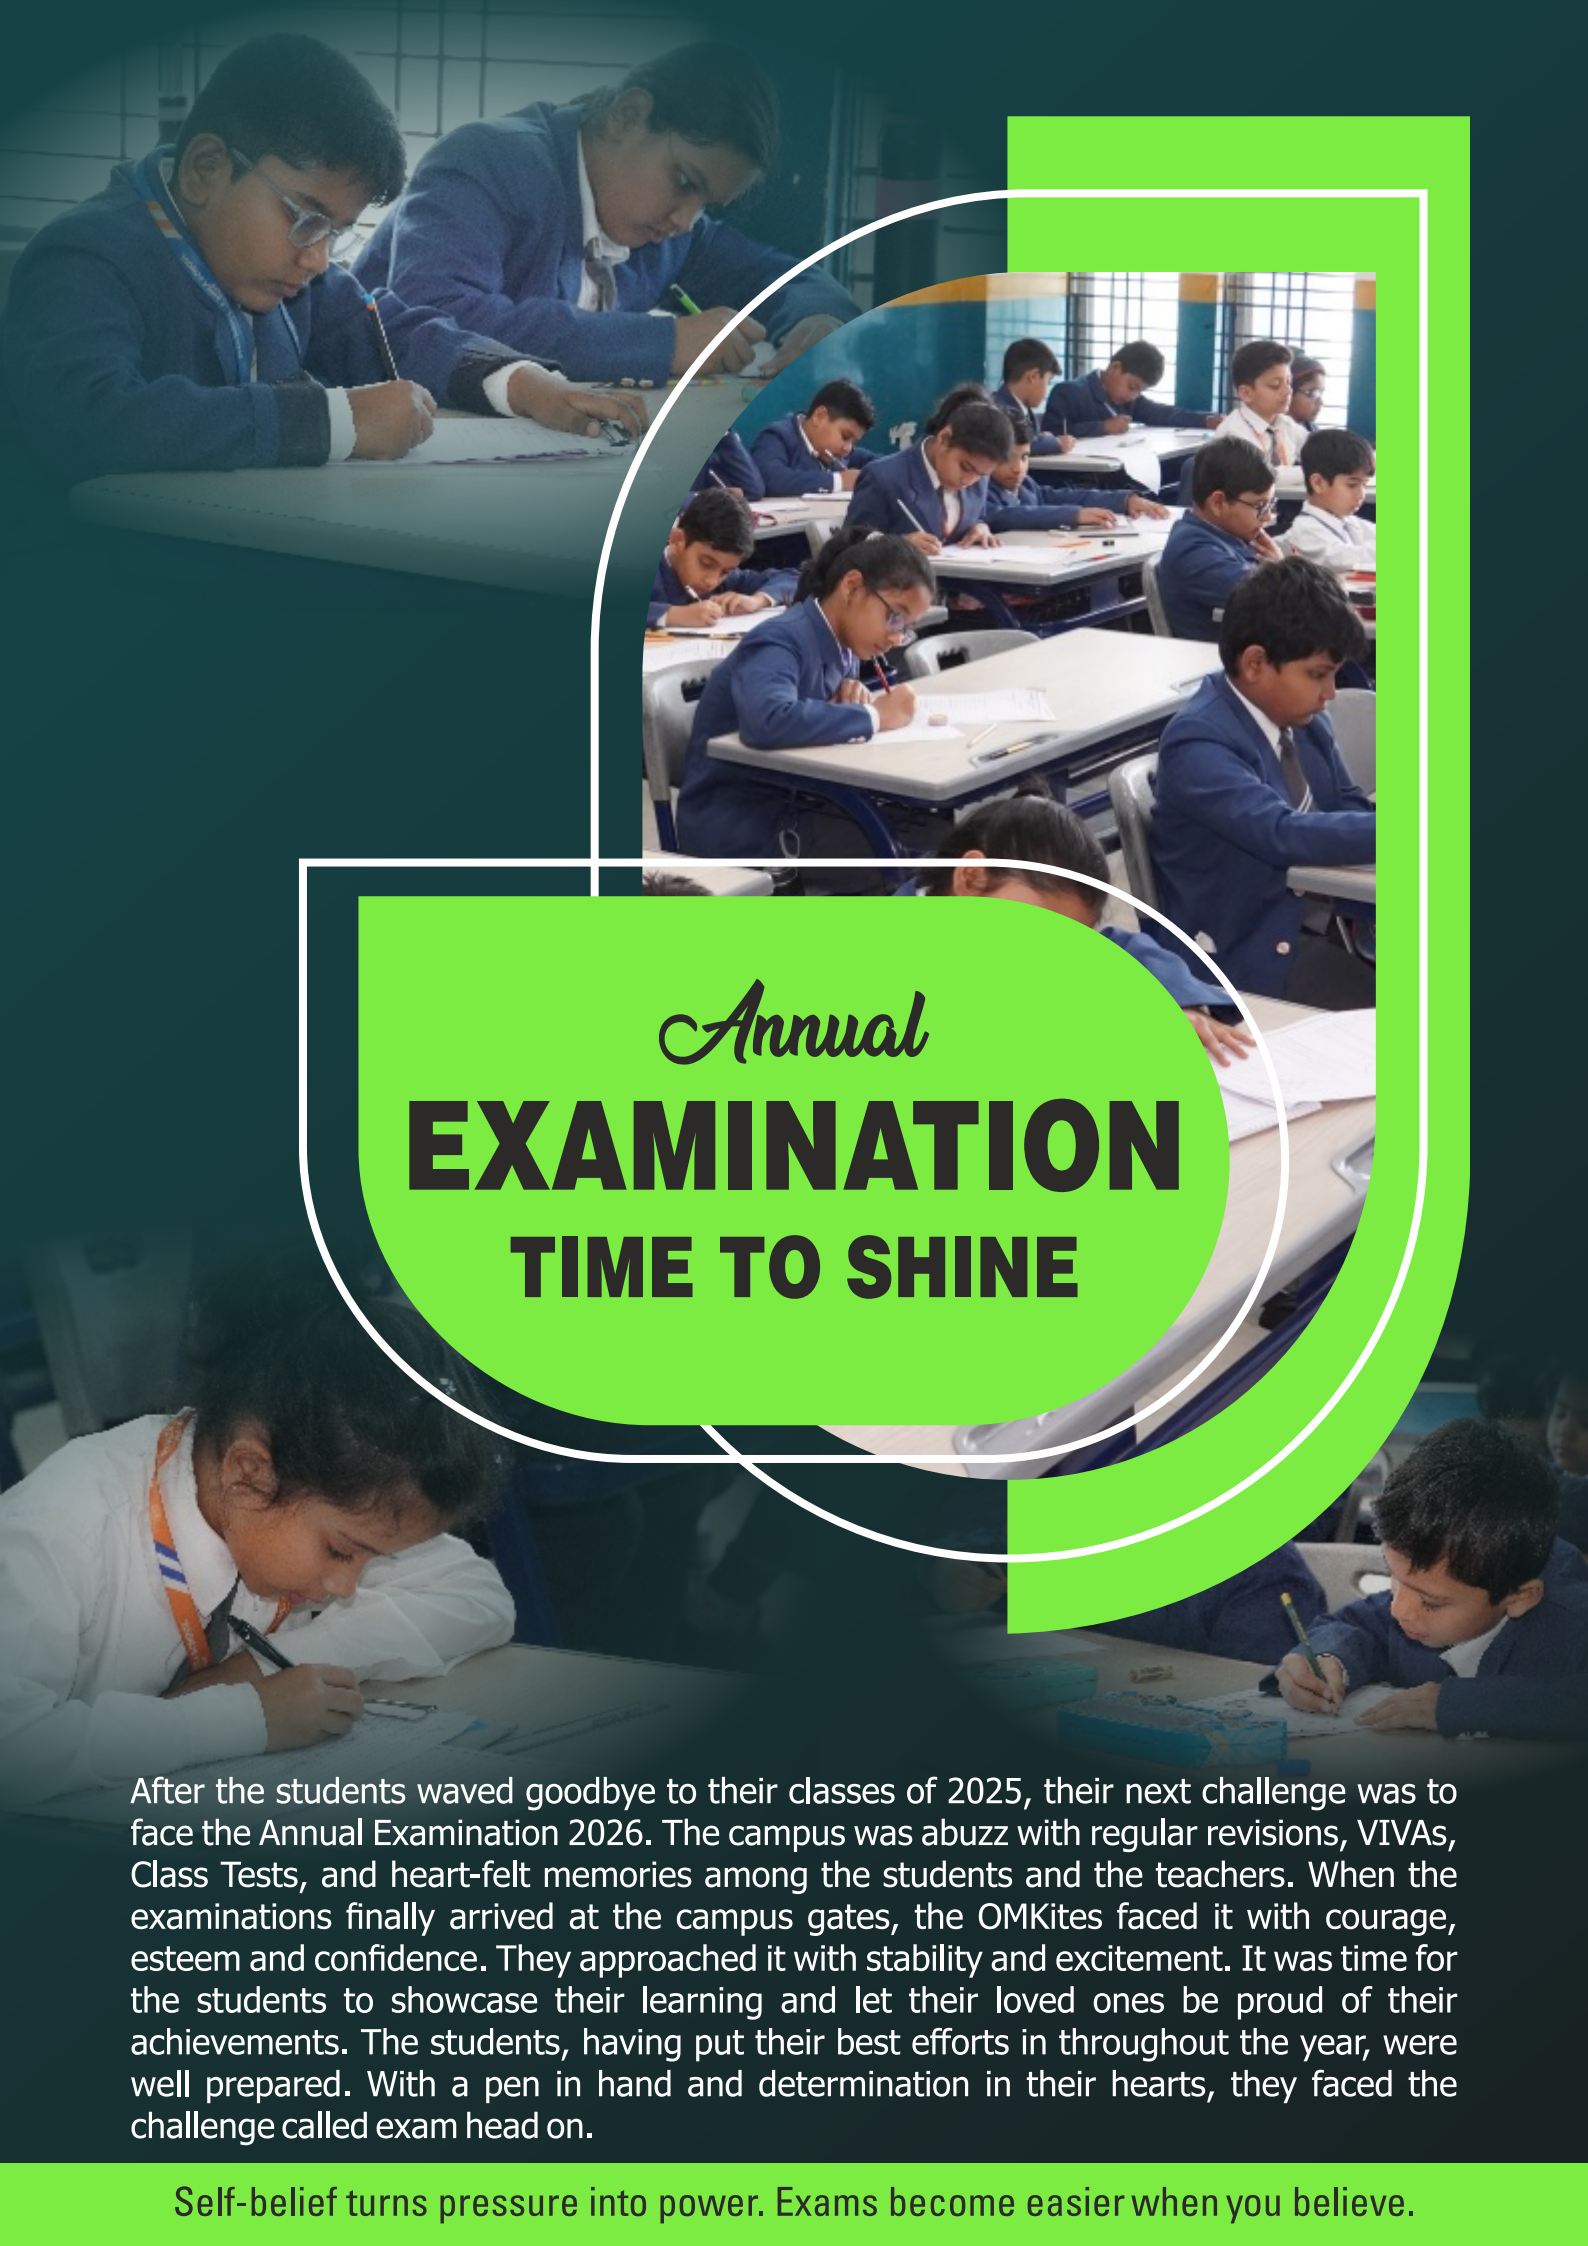

If you want to fly, give up everything that weighs you down.

Annual
EXAMINATION
TIME TO SHINE

After the students waved goodbye to their classes of 2025, their next challenge was to face the Annual Examination 2026. The campus was abuzz with regular revisions, VIVAs, Class Tests, and heart-felt memories among the students and the teachers. When the examinations finally arrived at the campus gates, the OMKites faced it with courage, esteem and confidence. They approached it with stability and excitement. It was time for the students to showcase their learning and let their loved ones be proud of their achievements. The students, having put their best efforts in throughout the year, were well prepared. With a pen in hand and determination in their hearts, they faced the challenge called exam head on.

Self-belief turns pressure into power. Exams become easier when you believe.

Your effort today shapes your result tomorrow. Believe and give your best.

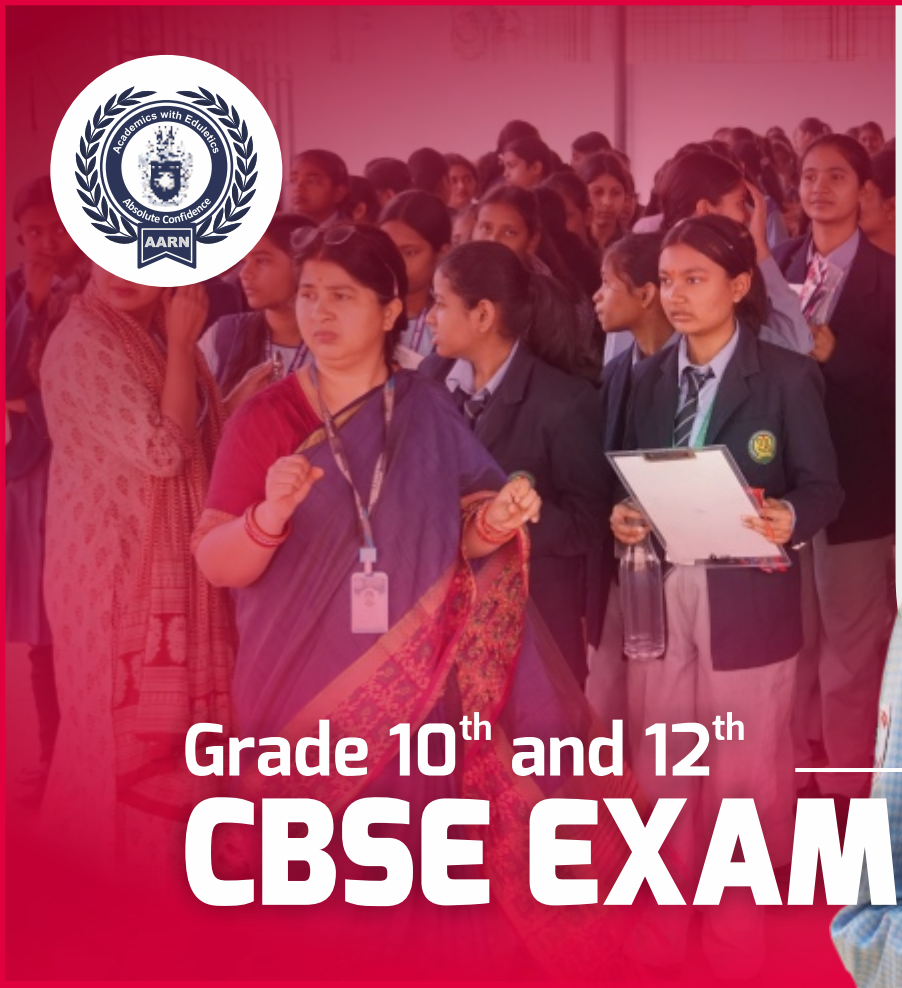

One exam cannot define your future.Your confidence defines your performance.

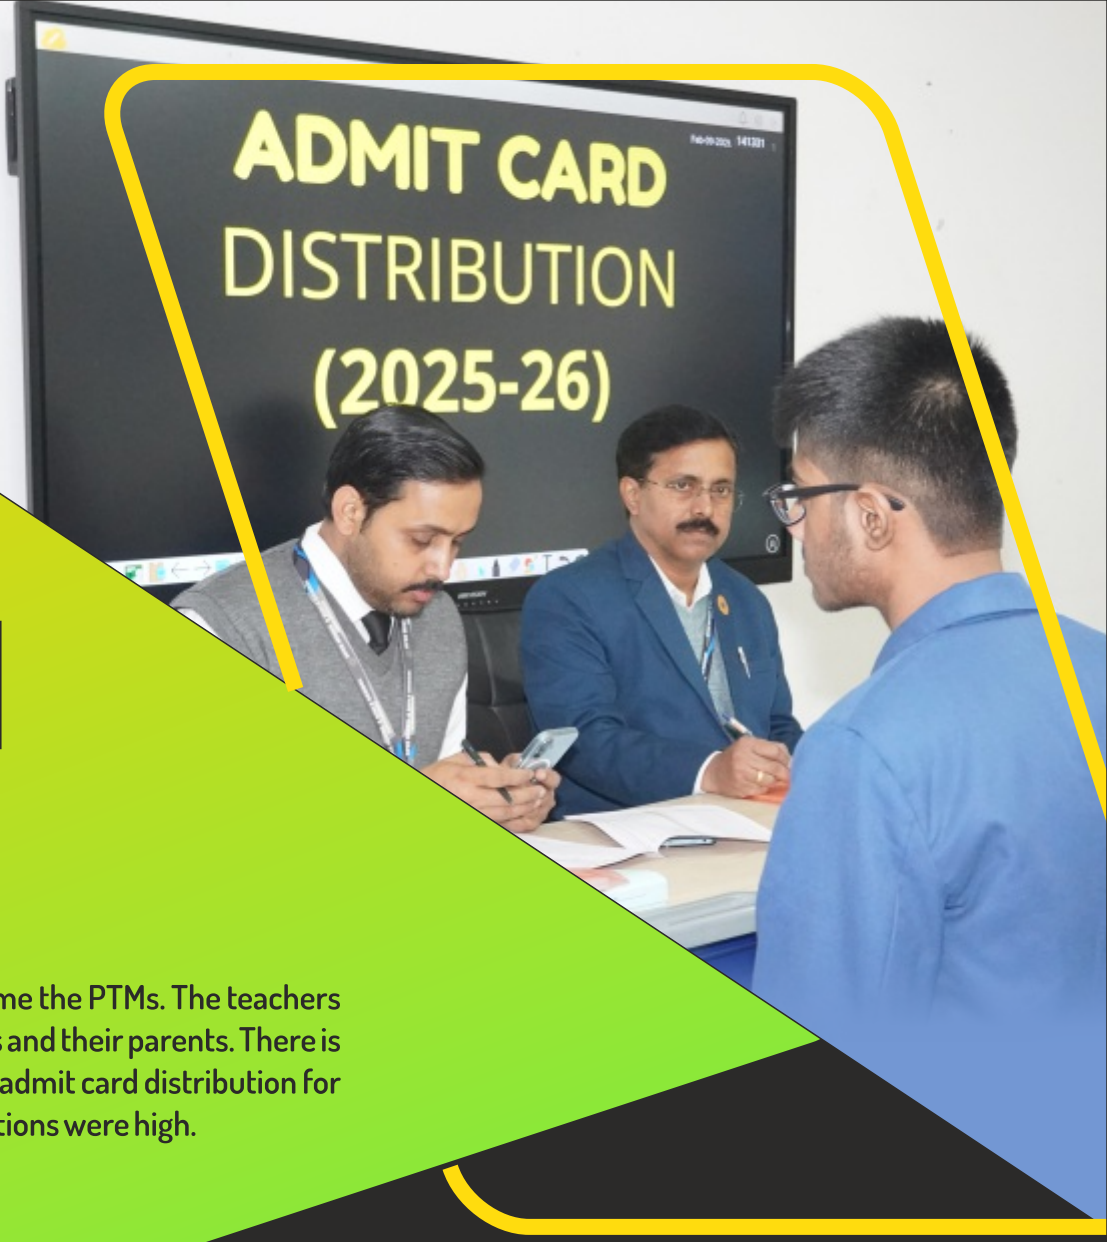

Grade 10th and 12th
CBSE EXAMINATION
2026

The biggest challenge a teenager faces is the Board exams staring at them after Grades. 10 and 12. It's an iron gate that every student must cross at the end of their high school years. Years of preparation has to be tested. The young minds go through a lot of huff and puff burning midnight oil, and even the guardians have to pass many sleepless nights as the kids are found to be investing every ounce of stamina they can muster.

It's, however, a great test of the stuff we are made up off. After all, it's challenges that bring the best out in a person. Fire makes the gold glow harder and leaves the iron stronger. Here are the visuals of the CBSE exams conducted at OMK...

"Trust yourself; you know more than you think you do." — *Benjamin Spock*

PTM
OF GRADE
10 & 12

After both the Pre-boards, come the PTMs. The teachers are eager to meet the students and their parents. There is another thing in the store, the admit card distribution for the Board exams. The anticipations were high.

With eagerness to know their result, the students turned up all excited, their faces radiating hope and confidence. The CTs sat with them, the positives were appreciated, the loopholes were discussed.

Finally, they received their admit cards and went home with a new resolve to do well in the upcoming Boards.

"There are two days in the year that we cannot do anything, yesterday and tomorrow." — *Mahatma Gandhi*

"Keep your eyes on the stars, and your feet on the ground." — *Theodore Roosevelt*

Library Certificate Distribution

Libraries are beautiful places. They represent a unique world inhabited by books. Every child in the school loves and is eager to visit the library. The moment you enter it, a fantastic serenity envelops you. Even the noisiest kids fall silent over there. It's the protocol of the place that teaches them so many things.

They learn how to read both quietly and loudly. They learn the importance of pauses, the right pronunciation, the significance of word stress, and finally the correct intonation. They also get aware of the right manners when they have to assemble at a particular public place.

The young readers of OMK, get certificates of excellence as well as encouragement to evolve further in their companionship with the books. Every year, it happens in February – just before the session ends. Enjoy some visuals of the same...

"An award is not just a trophy, it is time, effort, and excellence made visible." — *Wayne Chirisa*

"Trophies gather dust, integrity, dedication, and vision never will." — *Wayne Chirisa*

"Winning is temporary, what you inspire in others because of it, is lasting." - *Wayne Chirisa*

K2 ASSEMBLY

- February which represents Spring – the season of a new beginning, saw the assembly of tiny tots being organised. The topics were of their interest, and the kids involved were the students of K2 Iota and Delta.

One thing that fascinated us all was their fearless attitude. The way they took the stage. surprised everyone. No one was hesitant. No one said, 'Please leave me alone'.
They prepared well under the caring eyes of their class teachers, and delivered it in a perfect style. Nobody could say they were novices or took to the stage for the first time. They spoke fearlessly like pros. Have a few glimpses of the day...

K2 ASSEMBLY

"It is not in the stars to hold our destiny but in ourselves."- *William Shakespeare*

EXCURSION TO ZOO

Patna Zoo holds an unidentifiable attraction for the young nature lovers. They love to go there to watch numerous species of flora and fauna. Especially, the students are excited about watching big predators like the Asiatic Lions, the Royal Bengal Tigers, the White tigers, the rhinos and numerous other animals. Visiting there provides a beautiful opportunity to educate them about the world of plants and wild animals and cultivate the sensitivity about their co-existence with them.

Every year Open Minds - A Birla School, Kankarbagh organises an excursion to the zoo for the Pre Primary Students kids. This year too, the earmarked classes went on a visit there and enjoyed themselves in the soothing environs away from the noise of the city life.

Don't tell me how educated you are, tell me how much you travelled.

"Travelling – it leaves you speechless, then turns you into a storyteller."- *Ibn Battuta*

"The world is a book, and those who do not travel only read a page."- *St. Augustine*

"The further I go, the closer to me I get."- *Andrew McCarthy*

Life Is a Joweney

It's magnanimous to begin a game in a nice way, it's more magnanimous to wrap it up as the most beautiful memory of the year. A session ending in a school is an emotional time. It is overwhelming for both the students and their mentors. Bonds melt into nothingness and then forge into a new and more beautiful one. We lose teachers as we change the classes, we get new ones when we enter a new grade. It may be taxing for a few, but it's the teachers who jump in to help the children realize 'the life always moves on; it's not about being stuck at a particular destination. It's better to relish those lost moments in memories, and outstretch one's arms to welcome the new ones.After all, aren't we Open Minds?

Life is more than just fixing your past mistakes.

"If you are brave enough to say goodbye, life will reward you with a new hello."- *Paulo Coelho*

This isn't the end; it's just a new beginning.

"Great is the art of beginning, but greater is the art of ending."-

Exceptional Performer of the Month

We are delighted to announce the Exceptional Performer of the Month for his exemplary performance and unwavering commitment to quality education.
