April 2026

Principal's Desk

Dear Readers
Greetings!

"No winter lasts forever; no spring skips its turn."

— Hal Borland

How beautifully this quote reminds us that change is both inevitable and transformative. As we step into the third year since our establishment, we realise that life rarely grants us the luxury to pause and reflect upon the trials that shape our journey, for the promise of new beginnings stands at our threshold, beckoning us forward in the ceaseless rhythm of growth and discovery.

As we commence the academic year 2026–27, our aspirations stand energised and our carefully envisioned goals take wing with clarity and intent. We remain deeply grateful as we reminisce about the trust, warmth and encouragement our parent community has so generously extended to us. There have been innumerable moments when your thoughtful support and perceptive guidance have played a defining role in shaping Eduletics into the institution it proudly stands as today.

With a surge of expectations and an unshakeable commitment to the holistic well-being of our children, we embrace this academic year with a vision that cultivates potential, ignites a pursuit of distinction and leads each learner towards a deep sense of purpose.

While academics have always remained the fulcrum of any institution, we believe that an identity shaped solely by scholastic achievement may overlook the richness of diverse intelligences. The harmonious amalgamation of club activities with classroom learning cultivates well-rounded individuals, who grow into confident, empathetic and globally aware citizens.

Entering our third year brings with it a sense of warmth and quiet assurance. We are no longer strangers to one another but a closely knit community, strengthened by familiarity and unified aim. We take pride in the journey thus far, cherishing the families who have stood by us with enduring faith and warmly welcoming those who have newly entrusted us with the future of their children. With humility and hope, we seek the Almighty's blessings to grant us the strength, insight and constancy to serve each child with care, bringing joy to both the nurturer and the caregiver.

As we turn the page to yet another promising chapter, let us move forward together with renewed zeal, shared perception and an abiding belief in the potential of every child. May this academic year unfold as a landscape of learning, curiosity and meaningful achievements, where every effort blossoms into success and every dream finds its path to fulfilment.

May your reading be enriching and enjoyable!

With regards

Team EBS

Parent Orientation Programme

Seldom do we encounter moments that gently unveil the deeper purpose behind what we commit our present to. The month of April opened with one such

quietly significant occasion, the Parent Orientation Programme, where insight met experience in a setting both thoughtful and engaging. It offered parents an immersive understanding of our educational approach, the distinctive features that shape our learning environment and the seamless rhythm of the school's functioning through our app, Eduletics.

What lent the day its true distinction was the assured presence of our students, who took the stage with ease and clarity, unfolding the inner workings of the school and the shaping of the curriculum. Their presentation flowed with natural transitions, thoughtfully supported by visuals that enhanced both comprehension and connection. The experience, in its entirety, was not merely informative

but deeply meaningful, allowing parents to clearly understand the purpose, principles and direction that guide the school's journey.

*"A parent orientation is not merely an introduction-
it is the quiet beginning of a shared journey in
shaping futures."*

*"An
orientation
today
builds
the
confidence
that
nurtures
every
child
tomorrow."*

"Beyond information, a parent orientation offers connection - the foundation of every thriving learning community."

"When schools open their doors to parents, they also open pathways to trust, understanding and meaningful collaboration."

"It is in these moments of sharing that the spirit of a school becomes visible and deeply felt."

"True education flourishes where parents and schools walk together with clarity and common purpose."

Activities...

*"Where laughter flows
as freely as water,
memories are made to last."*

Water has always held an irresistible allure and for children, especially in the height of summer, it transforms into a realm of sheer delight. To celebrate this joy, we curated a day brimming with laughter, exuberance and playful freedom as our young learners stepped into the swimming pool to beat the sweltering heat. For many, the water was already a familiar companion and they slipped into it with effortless ease. For a few others, it was a gentle beginning, tentative yet brave, adding a quiet sense of triumph to the day. The pool soon echoed with ripples of laughter and animated chatter, turning the space into a lively landscape of happiness.

Beyond the evident merriment, the experience unfolded as something far more meaningful. It became a beautiful blend of confidence, friendship and self-discovery, where each child, whether experienced or new to the water, found their own rhythm. Teachers watched with pride, offering reassurance and encouragement, as moments of hesitation dissolved into smiles of accomplishment. The day lingered like a sunlit memory, where the water did not merely cool the body but uplifted the spirit, leaving behind a lasting sense of wonder and belonging.

"In every splash, a story of joy and courage unfolds."

*"Cool waters,
warm smiles,
and hearts
full of happiness."*

"A day in the pool. a treasure of moments forever."

Healthy Food Day

Healthy Food Day took shape as a gentle celebration of care, where little hands held vibrant fruits and wholesome meals with quiet pride. The arena glowed with colour and freshness as children spoke about their food with an innocence that felt both tender and wise. Each plate seemed to carry not just nourishment but sweet tales of love, of homes, of habits and of choices that shape growing hearts and minds.

What made the day truly luminous was the spirit it awakened. In every shared bite and thoughtful word, there was a quiet realisation that caring for oneself can be simple, joyful and deeply meaningful. The children embraced this idea with a sincerity that felt almost poetic, turning an ordinary day into a beautiful reminder that good health begins with small, mindful choices and blossoms into a life filled with energy, balance and quiet happiness.

Little Nutritionists

"Eat fresh, feel bright, grow stronger with every bite."

"Healthy food each day keeps worries far away."

"Colour on the plate makes the body feel great."

Happy Earth Day

"In the gentle hands of children lie the strongest roots of tomorrow."

Growing Green Minds

We hold a quiet yet powerful belief that even the smallest hands possess the strength to transform the world. Year after year, this cherished tradition becomes a gentle awakening for our youngest learners, guiding them to understand the profound responsibility of nurturing and protecting our Mother Earth. It is deeply important that these tender minds begin to recognise how thoughtless actions can disturb nature's delicate harmony and how unjust it is to take for granted the countless gifts she so generously offers. As the children planted saplings with care and curiosity, it felt as if they were planting hope, quietly urging the world to pause, reckon and care for life. A thoughtfully curated presentation further illuminated the stark realities of environmental degradation, offering a glimpse into what the future may hold if mindful steps are not taken today. Through these experiences, the children not only participated but truly absorbed the essence of Earth Day, embracing its message with sincerity and promise, reminding us all that meaningful change often begins with the simplest and most innocent of actions.

*"When little hands plant a sapling,
they sow the promise of a greener world."*

*"Every child who learns to love
the Earth becomes its
lifelong guardian."*

CBSE Training

Teaching Reimagined

"Teaching begins where understanding deepens."

The school recently hosted a CBSE in house training on Teaching Pedagogy, turning an ordinary day into a moment of quiet reflection. Teachers stepped beyond their familiar roles, engaging as learners and revisiting the essence of their craft.

The session shifted attention from content to approach, inviting more thoughtful, inclusive and student centred practices. Pedagogy emerged as a living philosophy, one that grows with every child, every question and every classroom moment.

The training closed with a renewed sense of direction, leaving behind fresh insight and a deeper commitment to make learning more meaningful.

"A mindful teacher shapes a mindful classroom."

Best Speaker

Assembly

Grade 3 : Omega

Atharv Singh Chauhan
Congratulations!

Good Speakers:

*Nivaan Verma, Shivansh Kumar,
Affan Ahmad, Advika Mishra
and Avyaan Jaiswal*

Class Teacher: Ms. Swati Dixit

Topic: Save Environment

Honouring the Life of a Bright Soul...

An Epitome of Eternal Grace

A TRIBUTE TO OUR PATRON
Shri Ram Layak Singh

06.12.1939 - 10.04.2024

नैनं छिन्दन्ति शस्त्राणि नैनं दहति पावकः।
न चैनं क्लेदयन्त्यापो न शोषयति मारुतः॥

There are lives whose presence becomes inseparable from the very spirit of a place, so deeply woven into its being that even in absence, they are profoundly felt. One such revered soul, Shri Ram Layak Singh, who departed for his heavenly abode in April 2024, continues to live on in the quiet remembrance of all who had the privilege of knowing him closely.

On this day of solemn remembrance, the school community gathers in unison to offer prayers for the peace of his noble soul. In every heart resides a silent prayer: that even as he journeys beyond this world, his blessings may continue to guide and inspire us always.

"A life so deeply lived never truly departs—it continues to dwell in the hearts it has touched."

"In remembrance, we do not relive loss alone-we rediscover the quiet strength of a life that still guides us."
