July 2026

Principal's Desk

Dear Readers
Greetings!

Some chapters are not written with words alone. They are written in laughter echoing through corridors, footsteps hurrying towards classrooms and young minds eager to learn. July opened one such unforgettable chapter for **Eduletics**.

The summer vacation had reached its natural close in June, yet the season was not quite ready to bid farewell. In accordance with the District Magistrate's directive issued during the spell of intense heat, the reopening of the school was briefly deferred. For a little while longer, the campus rested in quiet anticipation, as though patiently waiting for the return of the laughter that alone could awaken its soul.

Then, with the arrival of July, they returned.

The school did not merely reopen. It came alive. Classrooms regained their sparkle, the corridors rediscovered their conversations and the playground once again echoed with carefree laughter. Every child who walked through the gates reminded us that the true spirit of a school is found not within its walls, but within the hearts that bring it to life.

With this renewed spirit, each morning became a celebration of expression. One class after another stepped onto the assembly stage, presenting thoughtful themes with confidence, creativity and grace. Every performance reflected careful preparation, while the stage itself became a space where ideas found wings and young voices found confidence.

As the days progressed, the colours of patriotism quietly began to fill the campus. Preparations for Independence Day gathered pace, with students coming forward in large numbers to participate in a variety of cultural presentations. Their wholehearted involvement is transforming every rehearsal into a beautiful reflection of unity, pride and love for the nation.

Alongside these celebrations, academic pursuits continued with equal dedication. To nurture evolving learners gracefully, extra classes were organised to provide focused support, clarify concepts and build steady confidence. This was beautifully followed by the Practice Test, thoughtfully introduced to strengthen understanding, encourage meaningful revision and prepare students for the Mid Term Examination scheduled for August. Together, these efforts reinforced that confidence is built through sincere preparation and consistent effort.

As July gracefully draws to a close, it leaves behind more than a calendar of events. It leaves treasured memories, quiet moments of growth and the reassuring belief that every new beginning carries the promise of endless possibilities. With grateful hearts and hopeful minds, we now step into a new month, ready to learn, to grow and to create many more stories worth remembering.

May your reading be as delightful as the memories these pages hold!

With regards

Team EBS

The background of the top half of the page is a photograph of three children in a swimming pool. A girl in the foreground is on a colorful inflatable ring, and two boys are further back, also on rings. In the top right corner, there is a white line-art illustration of a child swimming with goggles. The title 'Splash Pool Activity' is written in a large, bold, pink script font, and 'Laughter Afloat' is written below it in a smaller, white cursive font.

Splash Pool Activity

Laughter Afloat

Childhood has a wonderful way of finding joy in the simplest of moments. The Splash Pool Activity for our Pre Primary learners was a beautiful reflection of this truth. The campus came alive with cheerful laughter, playful splashes and endless giggles as the little ones immersed themselves in an experience filled with delight. Their carefree smiles and infectious happiness reminded everyone that the purest moments are often the most unforgettable.

While the activity offered a refreshing break from the classroom routine, it also encouraged confidence, social interaction and joyful participation. Watching the children laugh together, cheer for one another and embrace every moment with unreserved happiness was a heartwarming sight. It was a day that celebrated childhood in its truest sense, leaving behind memories as bright as the smiles that filled the poolside.

The bottom half of the page features a photograph of a school building with a swimming pool in the foreground. Several children are in the pool, some on inflatable rings. A large, stylized blue water splash graphic is on the left. On the right, there is a white line-art illustration of a smiling child's face with goggles. The quote is written in a pink script font over the building and pool area.

"Childhood finds its greatest happiness not in extraordinary moments, but in the freedom to laugh without reason."

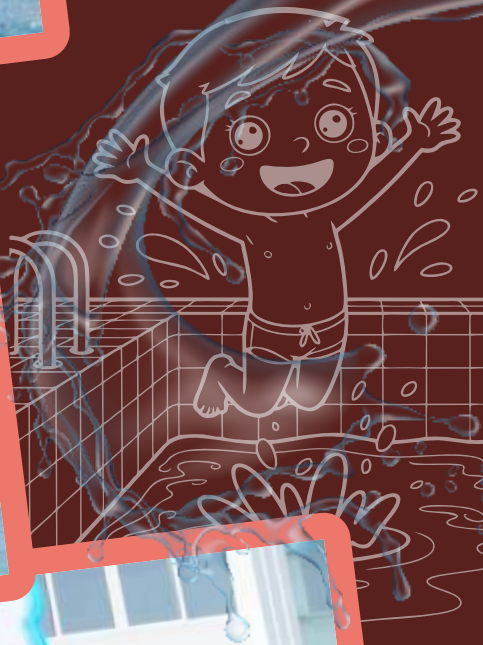

"Every splash carried a smile and every giggle became a memory waiting to be cherished."

"The laughter of a child has a quiet way of brightening every heart it reaches."

*"Play is where confidence blossoms, friendships grow
and childhood reveals its happiest colours."*

"Some of the finest memories begin with wet footprints, cheerful hearts and endless laughter."

Every remarkable achievement begins with curiosity, grows through dedication and shines through excellence. We take immense pride in celebrating the outstanding performance of our students in the SOF Olympiad Examinations. Their exceptional accomplishments reflect their passion for learning, tireless efforts and determination to excel. These achievements also celebrate the constant guidance of their teachers and the heartfelt encouragement of their parents, whose support has inspired them to reach new heights. We congratulate all our achievers and wish them many more milestones, greater success and a future filled with limitless possibilities.

*"Excellence is not an act of chance.
It is the quiet outcome of countless
moments of dedication."*

Some lessons leave an impression far beyond the pages of a book. They quietly shape the way we think, the choices we make and the future we build. One such enriching experience unfolded as the teachers gathered for an insightful session on Financial Literacy and Awareness, conducted by

Teacher Training Session

Financial Literacy and Awareness

Seeds of Prudence

Mr. Raja Babu. With clarity, warmth and practical wisdom, he transformed what often seems like a complex subject into meaningful conversations that everyone could relate to. The session gently reminded us that financial awareness is not merely about managing money but about making thoughtful decisions that lead to a secure and balanced life.

The session was met with keen interest and active participation from the teachers, who embraced the opportunity to deepen their understanding of financial planning and responsible decision making. Through relatable examples and practical insights, they gained valuable knowledge that could be applied not only in their personal lives but also in guiding young learners towards becoming financially aware citizens. It was a meaningful learning experience that inspired reflection, encouraged informed choices and reaffirmed that true learning continues well beyond the classroom.

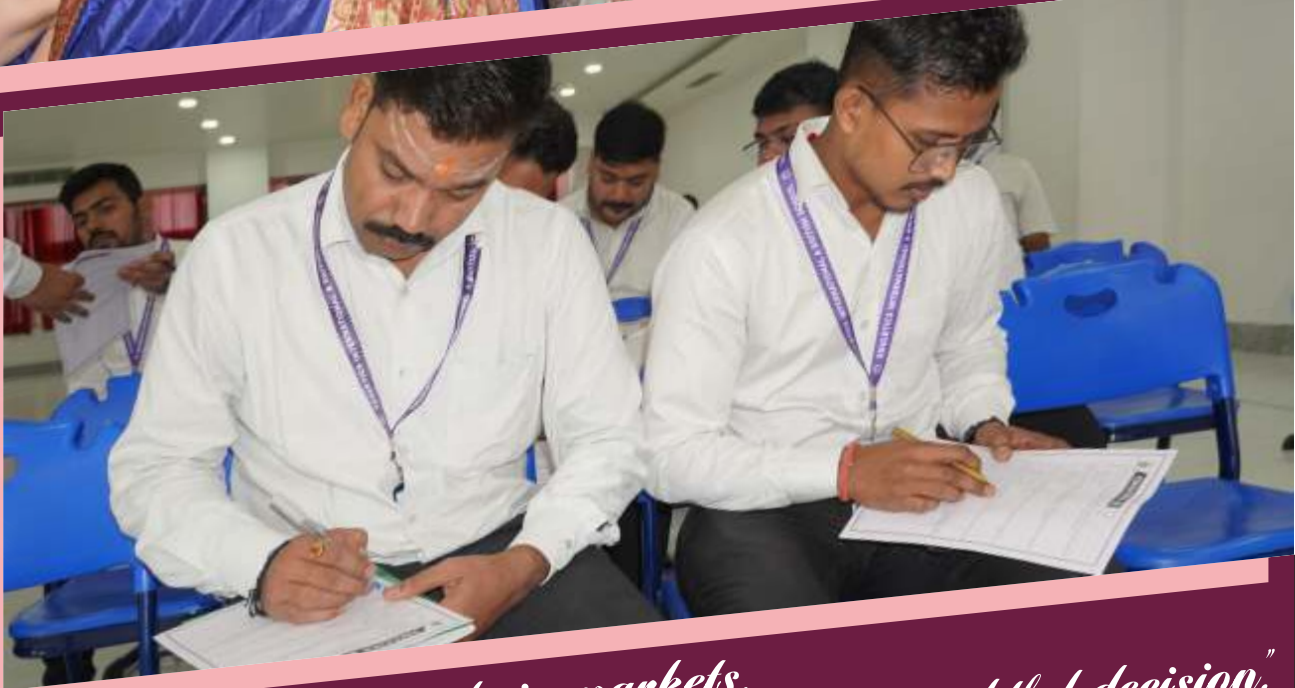

"True wealth begins not with what we possess,

but with the wisdom to cherish, manage and grow what we have."

*"Financial literacy is more than understanding money.
It is learning to shape today's choices into tomorrow's security."*

*"The richest investment is not made in markets,
but in the knowledge that guides every thoughtful decision."*
